Dear Project Administrator:

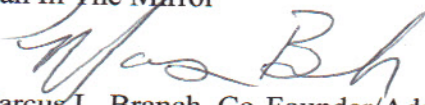

I am extremely happy to submit this letter of support on behalf of the Timbuktu Project.

Since its inception, The Man In The Mirror has always stressed the need to implement special educational materials that can influence learning and behavior simultaneously. From our discussion, it is obvious this project will create a learning environment that will be conducive to both areas of educational concerns. Also, there is a special need to impact a generation of youth in academics and civility using materials beyond the traditional classroom textbooks. Again, I believe this project will create excitement in the educational community due to the mode of delivery chosen. Many of our youth, as well as adults, will be rewarded by your skillful efforts to combine research, documentation, and presentation. It appears to be a win, win, win situation.

Thank you for sharing your vision with us.

Sincerely,

Dr. Elizabeth G. Branch, Founder/Director
Man In The Mirror
